

Eductor Agitation

Cost Effective

Safer Environment

Efficient Agitation

Innovative AIR-LESS® eductor agitation for a safer working environment. Undoubtedly the most cost effective alternative to traditional air agitation.

AIR-LESS® Educator Agitation System

ELECTROPLATING / PCB PLATING

- ▶ For Nickel, Copper, Zinc, Zinc-Nickel, Chrome, Gold, Silver, and many other plating processes
- ▶ Increased effectiveness - agitation where you need it most: under the surface
- ▶ Reduction and elimination of surface airborne emissions – for a healthier environment
- ▶ Reduce heat loss and save energy and money
- ▶ Eliminate ingress of damaging dust, dirt & pollen particles

METAL FINISHING

- ▶ Alkali Cleaners, Phosphate Tanks, and Paint Strippers
- ▶ Improve cleaning/stripping with direct impingement scrubbing action
- ▶ Increase productivity with faster cleaning times
- ▶ Prevent sludge settlement for easier removal and filtration times

STEEL AND AEROSPACE

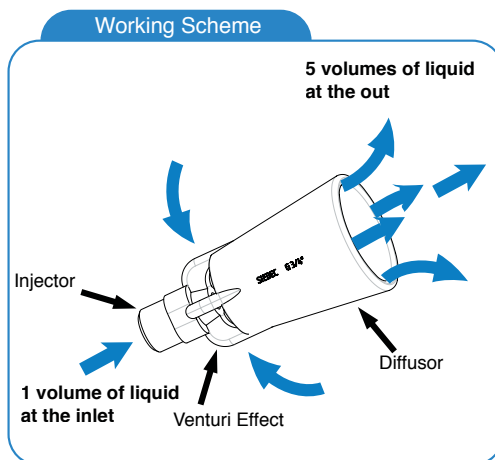

- ▶ Acid Pickling and Chemical Etch tanks
- ▶ For faster pickling/etching times with increased productivity
- ▶ Ensure consistent compliance with process specifications
- ▶ Eliminate large tank 'dead zones'
- ▶ Maintain catalysts in suspension

ALUMINUM ANODIZING

- ▶ Increase Anodizing rate for more uniform coatings
- ▶ Ensure uniform temperature distribution for lower 'Chiller' cost

The SIEBEC Educator Nozzle

- ▶ Higher throat to discharge diameter
- ▶ Available in Polypropylene (PP), Polyvinylidene Fluoride (PVDF), and stainless steel.
- ▶ Male BSP thread
- ▶ High flow/low pressure drop
- ▶ Gives 1 to 5 input-output agitation

Type	Dimensions (mm)		
Diameter	Length C	Length B	Diam. D
1/4"	72	61	29
3/8"	96	81	40
3/4"	152	130	48
1 1/2"	202	176	53
